ebianlab:~# vlc
 not supposed to be run as root. Sorry.
 need to use real-time priorities and/or privileged TCP ports
 use vlc-wrapper (make sure it is Set-UID root and
 be run by non-trusted users first).
ebianlab:~# ▮

Animations

Suspend when laptop lid is closed

Over-Amplification
Allows raising the volume above 100%. This can result in a loss of audio quality; it is better to increase application volume settings, if possible.
